M: Hello, everyone. I'm Shawn Collins, a doctor at Collins Sleep Clinic. Sleep is one of the most essential parts of our daily lives. So today, I'm going to introduce the best foods for helping you sleep better. First, kiwi fruits contain a high level of hormones that help you fall asleep more quickly, sleep longer, and wake up less during the night. Second, milk is rich in vitamin D and it calms the mind and nerves. If you drink a cup of milk before you go to bed, it will definitely help you get a good night's sleep. Third, nuts can help to produce the hormone that controls your internal body clock and sends signals for the body to sleep at the right time. The last one is honey. Honey helps you sleep well because it reduces the hormone that keeps the brain awake! Now, I'll show you some delicious diet plans using these foods.
